

Richmond District On-Call

Scope

The Virginia Department of Transportation is seeking expressions of interest from consulting engineering firms who wish to be considered to provide professional engineering services on an as needed basis for traffic studies, analysis, design and review of traffic signals, signs, Intelligent Transportation Systems (ITS) devices, pavement markers / markings, guardrail, lighting, other roadway safety improvements, and for other traffic engineering related purposes.

The counties listed in Table A represent the traffic engineering service areas within VDOT's Richmond District included in this request for proposal. VDOT reserves the right to modify the counties included in this Request for Proposal (RFP). Under some task projects, it may be necessary to include counties in adjacent service areas or cities within the District as part of one project to ensure continuity of studies or plan development.

The contract will be administered by designated staff from the assigned District. The on-call contract is intended to supplement VDOT's internal resources on an as-needed basis by providing a flexible and effective way for the Department to respond to recurring consultant professional service needs for multi- dimensional tasks covering a range of traffic engineering and operations work. The following required services described under the heading "Scope of Work" are not intended to be all-inclusive under this contract. The Department may assign any task that is typical work considered to be in the area of professional expertise known as "Traffic Operations/Traffic Engineering."

Anticipated Key Personnel Working Titles (Number of Resumes):

1. Electrical/Communications Engineer D (1)
2. Engineer Project Manager F (1)
3. ITS Engineer F (1)
4. Roadway Engineer F (1)
5. Signals Engineer F (1)
6. Structure & Bridge Engineer F (1)
7. Traffic Engineer F (1)
8. Traffic Engineer G (1)
9. Lead Planner C
10. Modeler D

Anticipated Additional Working Titles:

1. Designer/Engineer/Planner Intern
2. Designer/Engineer/Planner
5. Electrical/Communications Engineer
6. Engineer Project Manager
7. Senior Geotechnical Engineer
8. In Plan Utilities
9. ITS Engineer
10. Lead Planner Engineer
11. Network & Systems Engineer
12. Roadway Engineer
13. Signals Engineer
14. Structure & Bridge Engineer
15. Sue Engineer
16. Task Lead
17. Traffic Engineer
18. Administrative Assistant
19. CADD Technician
20. Construction Inspector
22. Construction Inspector- Project Records Manager
23. Construction Inspector Signals
25. Construction Manager
26. Data Analyst
27. Data Engineer
28. Engineering Technician
29. Financial Specialist
30. Geotechnical
31. GIS Specialist

32. Instrument Person
33. ITS Technician
34. Lead Planner
35. Licensed Surveyor
36. Modeler
37. Public Relations Specialist
38. Remote Pilot
39. ROD Person
40. SUE Crew Chief
41. SUE Field Technician
42. Survey Crew Chief
43. Survey Technician
44. Technical Project Manager
45. Traffic/ITS Specialist
