

CEI Services for I-64 Gap Segment B and C

Scope

The Virginia Department of Transportation (VDOT) is seeking expressions of interest from consulting engineering firms who wish to be considered to provide professional engineering services for project-specific agreements on the I-64 Widening Gap – Segment B or Segment C Design-Build Projects. These projects will be administered by the VDOT Richmond District Mega Projects office. The project-specific agreements will consist of providing construction engineering/inspection (CEI) services to supplement VDOT field staff during the construction phase from notice to proceed to project closeout. CEI services required will include all inspection documentation and field testing necessary to properly document construction quality in accordance with latest version of: VDOT Road and Bridges Standard Specifications (and supplements); VDOT Construction Manual; VDOT Inspection Manual; Materials Manual of Instruction; Instructional and Informational Memoranda; and Virginia Work Area Protection Manual. VDOT, at its sole discretion, will identify and award segment B or C to the selected Consultant.
